

Don Taylor

BAND STORY

"

Duffton Taylor also known as Don Taylor has been singing for about 35 years. One of Jamaica's Reggae veteran singer...

Duffton Taylor also known as Don Taylor has been singing for about 35 years. He is father of Tony Matterhorn and another big super star, not to mention the name now. Name will be mentioned later in the year at a family reunion. Don is the founder of T.Bess Record Label from 1994. "Trapped In The Rain" was a successful single in Jamaica for 3 months on the Irie FM Radio, RJR, and etc. Right now Don Taylor is setting up his studio in Hartford, CT, where he resides at this time. The studio will be ready for the public in the summer of 2008, possibly in May. Don Taylor and his T.Bess Co. are planning to put back the original reggae music in the right direction, where it suppose to be. With the originality this concept shall become successful in a proper way. He intends to have Matterhorn, Munga, Movado, and others who are interested to sing over songs originally on original rhythms.

Also,
My granddaughter Nadine Mahoney, general secretary, and part of the movement of T.Bess Company. (www.myspace.com/sxynay) She's a senior at University High School of Science & Engineering. A magnet school in Hartford, CT. She will be part of the modeling and fashion division of this company. We are soon to look for young models and singers, female or male, who are interesting in singing good original reggae music. We are not banning other genres but our main focus is reggae.
